STAT

PROPOSED AMENDMENT

Sec. 101 (b)(1)-- Section 2511(2)(f) of title 18, United States Code, is amended by inserting after the phrase "foreign intelligence information from international or foreign communications" the phrase "or foreign intelligence activities relating to a foreign electronic communication system".

SECTIONAL ANALYSIS

The purpose of this proposed amendment is to make clear that the prohibitions contained in the bill on activities relating to accessing electronic communication systems without authorization are not intended to restrict authorized intelligence activities conducted by a person carrying out official duties who is employed by, assigned to or acting for an agency within the intelligence community. Authorized intelligence activities are those which are consistent with Executive Order 12333 or its successor orders, taking into account the Constitution of the United States, relevant statutes, other Executive Orders and Presidential directives.
